Kansas "Subsidized."
It seems that, for the present, at least, the administration at Washington has effected a compromise of subduing the Free State of Kansas into submission to the black laws of the Border Ruffian Legislature. The troops of the United States have been unceremoniously employed in the prosecution of this tyrannical measure—as those of King George were employed to enforce upon the citizens of Boston the tyrannical and oppressive edicts of the British Parliament. The people of Kansas, however, cannot resist as our forefathers did, and must submit to the power of the Union, though it is exercised by the President against the sentiments of the people of the country.

By the last advice, it is stated that Dr. Sumner had addressed a note to the Mayor of Lawrence, announcing his purpose to proceed to that city, under the order of the President, for the express purpose of enforcing certain territorial laws which the people had not acquiesced in the official officers of the Territory to execute.

It is fact Sam Lathrop is at Lawrence with 100 U. S. dragoons, and is having writs made out for the arrest of one hundred citizens of Lawrence, who are charged with the commission of crime under the Territorial Border Code—some for being judges of election, some for taking the oath of office under the Constitution, some for refusing to act as "Shinners in Jones," some, and various other acts not consistent with the will of the Border Ruffian. A standing army is to be stationed in Lawrence until every person for whom there is a writ is arrested and taken to Leocompton.

Resistance to the forces of the Federal Government, of course, out of the question. It would be hopeless even if it were justifiable. A refusal of the people hereafter to obey the territorial laws of Kansas must be apparent rather than real. The interpretation of the national power, in support of a gross and outrageous wrong, gives it the ascendancy; and from this time forward the people of Kansas must evidently submit to the laws which the Missouri invaders have imposed upon them.

How long this state of things is to continue, and by what means it can be remedied, is not easy to say, except by a prompt change in the national administration. So long as Kansas remains a Territory, and without some means of protecting the purity of her ballot-boxes, it is clear that she will be constantly subjected to the same interference.

The proposal of Senator Seward to admit Kansas into the Union immediately, with the State Constitution formed at Topeka, would at once restore peace and order to the Territory. But it is evident that it cannot, and will not be adopted, under the determined opposition of the Senate and the Executive.

Western House, Boston. We notice that this new, spacious and elegant house, No. 382, Hanover Street, Boston, has been taken by Messrs. SAMUEL & MARTIN, well known and popular landlords formerly of the Franklin House, of that city. They have with them Mr. Geo. B. Robinson, well known to eastern capitalists as the generally obliging Clerk of the Western Hotel. George understands how to make everybody comfortable, and what is more, has the will to do it. We recommend our friends to give him a call.

The Webster House, a perfect home for the business man or the man of pleasure.

The Season at the West. The Rochester American of May 7th says that the present is a backward spring in that region, owing to large loads of snow at the north, and prevailing westerly winds—but that the low temperature of this season is favorable to wheat. It says "should the weather be favorable in June, July, August and September, the quantity of bread-stuffs on hand next autumn will be unprecedented throughout the country. The high prices of wheat last fall stimulated farmers every where to sow largely of the spring grain."

All the opponents of the present National Administration and the Nebraska inquiry, have united on a State ticket in Indiana. The following ticket was put in nomination: Governor, Judge Morton; Lieutenant Governor, General Baker; Secretary of State, John W. Dawson; Treasurer, Wm. R. Koffler; Auditor, E. M. Ellis; Attorney General, Jas. H. Evans; Superintendent of Public Instruction, John L. Smith. For Presidential Election, for the State at large, Samuel W. Parker and J. A. Hendricks were nominated.

Benton's Thirty Years in the United States Senate. This great work of Chas. Benton is now completed. The second and last volume will be ready for delivery in two or three weeks probably. Subscriptions are received in Bangor by Alonzo Barlow, at his bookstore in West Market Square. The political history has been written in a simple and unassuming style.

The "American" State Council of New Jersey met on the 7th, and after much wrangling resolved to postpone any endorsement of Fillmore's nomination, until he was heard from in reference to his Americanism. One delegate said his nomination was obtained by Southern and Spanish delegates, and this was confirmed by Judge Marsh who was President of the Philadelphia Know Nothing Convention.

The Philadelphia election turned upon a straight Fillmore issue. Mr. Moore was nominated as a "Fillmore Abolitionist" and supported the latter—a very disastrous result. The Whig party, 4000 men against him.
